Rule Change Intent

While the intent of DR 123. 3 is for scores to be posted at the competition, several competitions are interpreting the option of an electronic format to mean "cloud-based" postings. Posting signs with QR codes and site addresses, competitors, judges, spectators and interested parties are being directed to individual web-based sites to see class scores. Scores are no longer be posted on the competition site.

By the addition of the the word "onsite" in the two sentences pertaining to posting scores, it will clarify that all scores must be posted at the individual competition. The option of reviewing scores online can still be available for follow up but, show attendees will be able to see scores at the competition as originally intended.

Add "onsite" to the following sentences in DR 123. 3

Scores must be posted on an "onsite" public scoreboard as soon as possible after each ride. The public "onsite" scoreboard may be in either paper or electronic format.

2. The total score for the classification is obtained by adding the total points and determining the percentage score. With more than one judge, the percentage score is determined by adding the sum total points earned from all judges and dividing by the total available points. For FEI tests, penalty percentage points for errors of course, errors of test/execution, and technical faults are deducted from the total score (per Judge). If there are two or more judges, the points awarded by each judge will be published separately in addition to the total score. Total results and scores (to include technical, artistic or quality % scores) must be published in marks as well as in percentages with numbers to three places after the decimal point. Numbers of five (5) and above are rounded up (eg. 63.4555% = 63.456%). Scores must be posted on an **onsite** public scoreboard as soon as possible after each ride. The public **onsite** scoreboard may be in either paper or electronic format. Scores may be sent electronically (e.g. via text) to competitors and/or posted via the internet. The name of each judge must be posted along with the position where they are sitting. When multiple judges officiate from different positions, scores must be posted in the following order: E, H, C, M, B.
