

## HOW TO HOST A U.S. BASED FEI ENDURANCE COMPETITION

Below is a basic guide for hosting a U.S. based FEI Only licensed Endurance Competition. For FEI Competitions also running a national portion under the USEF license, please contact the [Director of Endurance](#) for more information.

This guide is not intended to supersede any USEF or FEI rules and is not an exhaustive list of requirements but instead an overview of the process and requirements to host a U.S. based FEI Endurance competition.

### LICENSING STAGE

#### **Registration of Licensee**

Registration of the licensee is an annual requirement and can be completed on the Competition Dashboard. To apply to hold a US Equestrian Competition, the licensee must be registered and obtain a US Equestrian Licensee ID.

Need to register a New Licensee, read the [Licensee Registration Guide](#).

Need to Renew/Update an EXISTING registration or Modify a Licensee or Transfer a Competition? Click [here](#).

#### **Applying to host a U.S. FEI Endurance Competition**

Determining a date and location: Applications to host a U.S. based FEI Endurance competition are due to the Federation by June 1 of the year prior to the competition. Review the [U.S. FEI Endurance Calendar Policies & Procedures](#) document for more information. Late applications for upper-level events will be subject to late fees.

When determining a location for the event, it is highly recommended that an organizer should be familiar with the trails and footing. The organizer should be familiar with what allowances the location is agreeable with to ensure FEI rules can be complied with and it is preferable that the organizer has ridden the trails.

All FEI Endurance competitions hosted in the US require a USEF license to be applied for prior to submitting the FEI Application. See below and review [here](#) the process for applying for a new or renewal license. Please note that the competition dates must match exactly between the FEI and USEF licenses if the competition is FEI only, if the FEI license includes National classes, then the competition dates must either match or fall within the dates listed on the USEF license.

Please ensure that the competition license includes the day in which the First Vet Inspection will occur on.

## **PRE-COMPETITION PREPARATIONS STAGE**

### **Competition Insurance**

A valid certificate of insurance, which names the United States Equestrian Federation, Inc. as an additional insured for each day of the competition, including set-up and take-down days, with at least \$1,000,000.00 coverage for third party general liability and \$50,000.00 coverage for equipment and property, must be provided to the Federation. Such certificate of insurance must be received by the Federation at least 15 days prior to the first day of the competition.

For Endurance competitions, it is common practice to include on the policy the day when the First (Pre-Ride) Inspection occurs as well as the day after any long-distance rides to ensure the competition is covered if any ride(s) go past midnight.

A sample certificate and insurance FAQs can be found [here](#).

### **Hire Officials**

When hosting a competition with multiple levels being offered, you will need to choose the level of Officials based on the highest ride level being offered and on the expected number of entries.

A list of FEI Endurance Officials can be found [here](#).

Review the [FEI Endurance Rules](#) when planning who you will be hiring as officials. For Treatment Veterinarians, please review Annex 5 section 5.2 for state licensing requirements.

Discuss with your officials logistical details such as transport, accommodation, reimbursement, etc.. See [Annex A: Officials Logistics](#) for more details.

This includes cancellation of any sections at the event (lack of entries, etc.) which must be communicated to the above email address before the start of the event.
